MISSIONeering is a non-profit ministry called to provide best practices training and ministry excellence software tools focused on helping pastors and church leaders to guide their churches to intentionally bring people to Christ and guide them to grow as disciples. We partner with a "cloud of witnesses" committed to this vision of growing the Church and deepening the lives of disciples in the Church. Become a part of the vision by donating to our work. Your donations help fund part of the cost of our training and tools so even the smallest church who has the heart to grow can afford to participate and benefit. You can be part of the revival of the Church by donating at our website.
