

Advisory Council Elections

The Advisory Council election process is available to persons whose role in Kairos leadership authorizes their access to the election tools in Kairos Messenger. Note that a person who is not authorized to manage the Advisory Council election process may not have access to those parts of the election tools that involve recording election information.

The primary person who has the responsibility (and therefore, the access) for the election process and keeping the roster updates is the Advisory Council Secretary. Persons with certain other roles may have access for viewing parts of the process but not in actually recording the election results.

To conduct the Advisory Council election, click on the Organization menu button, then Elections, and then Advisory Council.

This gives you the main “Record and Review Annual Advisory Council Election” screen.

All the resources you need to record and report the Advisory Council elections are accessed from this single screen.

The important issue is that the Active Volunteers elect persons to the Advisory Council, and you can email them to solicit nominations to the Advisory Council and then solicit their vote for the members of the Advisory Council. You no longer have to record those elections to the Advisory Council in KairosMessenger, but you do record the election of the Advisory Council members to their role on the Advisory Council.

Change in Election Recording Process for 2021

Starting with the Fall of 2020, the process for RECORDING Advisory Council elections has been simplified in KairosMessenger. You no longer have to RECORD the election of persons to their 3 year terms on the Advisory Council. You do, however, still conduct the 3 year term elections.

This does NOT mean that the process of requesting nominations for membership on the Advisory Council or the requesting a vote from the active volunteers for persons elected to the Advisory Council have changed. The ministry active volunteers are still the persons who determine who are the Advisory Council members.

The only thing that changes is that you do not have to record those confusing 3 year term with one-third each year results. You can still use the Election Email functions in KairosMessenger to help gather the nominations and vote from the active volunteers, but you don't have to record the results in KairosMessenger.

You still DO record the election of the members of the Advisory Council to their respective "roles" on the Advisory Council as normal.

If you are a “New Start” Advisory Council, the introductory information at the tope of the election screen has different information. But, the process is the same regardless of whether you are a “New Start” Advisory Council or not.

New Start Annual Advisory Council Elections

The current New Start Advisory Council secretary can track, communicate, and record annual elections to the Advisory Council positions. The persons who are "electable" to the New Start council are volunteers associated with your New Start. Volunteers associated with your Advisory Council are uploaded from Ezra at the end of each weekend. Until that happens, you'll need to go to the "Volunteer" section to insert persons to your Volunteer list.

You can also print a roster of your Advisory Council's members and positions.

1. Nominations and Voting for Advisory Council Membership

Send Email request for nominations to the Advisory Council and then to vote for the Nominees.

Let's get started. There are 4 sections to this screen.

Section 1 – Email Nominations Requests and Solicit a Vote for Nominees

Section 2 – Recording Elections to Positions on the Advisory Council

Section 3 – Send out Election Results (including job descriptions)

Section 4 – Print Advisory Council and State Chapter Elected Persons/Positions

Section1

Email Nomination Requests and Solicit a Vote

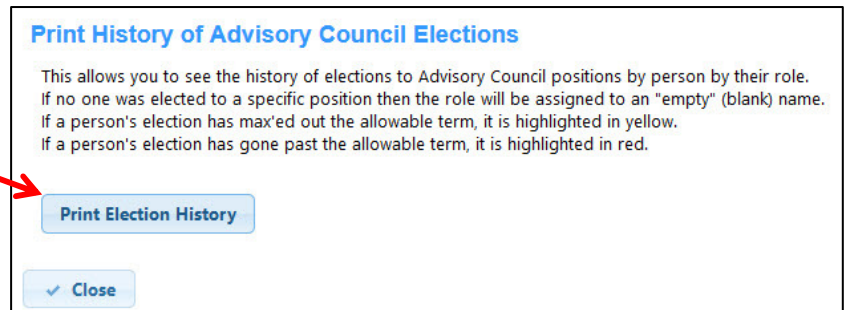

Before you begin soliciting nominations from the Active Volunteers, you will need to know what is the status of the electable persons.

The button to “Print Election History” is a great place to start since it will show you who has held what positions and for how long so that you can easily make informed decisions, in conjunction with ACOP, as to what slots need to be filled during the upcoming election.

The report list is by person and shows all the positions they have been elected to and for what years. This report is a very helpful tool in helping keep track of who has finished their terms on the Advisory Council and their terms in a specific role.

To start the report, click the “Print Election History” button and that will open an explanation screen and you click the Print Election History button on this screen.

If you have positions that went unfilled, those will be shown at the beginning of the report.

If a person's election has reached the limit of allowable terms, it will be color highlighted in Yellow.

If their election has exceeded the term limits, it will be highlighted in Red.

If a person's history has them elected to more than one position, each position and what years in the position they held will be shown.

At the end of each person's history is a summary of their most recent cumulative years on the Advisory Council and also the total years served.
